Driver's seat

[a] Vehicle Height

The maximum height of the vehicle is 2.60 meters. You will find an indication on the side of the steering wheel.

[b] Run Lock Option

The Run Lock option allows you to keep the truck's engine running even after removing the keys from the ignition.

It can be activated by pressing the button of the same name. Do not activate the Run Lock if the engine is not running, as it could drain the main battery.

[c] Media Operation

Step 01: Ensure that the ignition is engaged and press the 'System on' and 'Media' buttons located above the driver's cab. Press the 'Over-ride' button if you want to cancel the 15-minute timer to continue powering the vehicle when the ignition is turned off.

Step 02: To turn on the Apple TV, press the 'menu' button on the remote.

Step 03: To use the soundbar, press and hold the power button on the Denon remote.

Driver's seat

[d] Eberspächer Heating

The control is located to the left of the steering wheel. Press and hold the button at the top right to turn it on. Use the arrow to increase or decrease the temperature.

Driver's seat

[01] Yellow jacket

Nine yellow vests are located in the holder above the driver's seat.

[02] Security kit

The safety kit includes a warning triangle and a yellow vest. It is located above the passenger seat.

[03] Extincter

The fire extinguisher is located at the back of the front passenger seat, next to the refrigerator.

[04] Medical Kit

It is located in the driver's door pocket and includes: Breathalyzer, band-aids, adhesive tape, scissors, emergency blanket, gloves, and compresses.

[05] Cleaning kit

Un kit de nettoyage se trouve sous le siège du passager avant.

Hair & make up

[07] Safe

The safe is located above the technical cabinet. The activation code is 1234. The key is on the van's keychain. To change the code, refer to the manual inside the safe.

[08] Coat hooks

Two removable coat hooks are located to the left of the makeup mirror.

[09] Trash bin

A trash bin is located under the makeup table.

[10] Clothing rack

Circular bar located on the ceiling around the skylight.

[11] Heating

A heating vent is located in the hair & makeup area next to the rear left door.

[12] Linens kit

Consists of 2 towels and a bath mat.

Technical Equipment and Accessories

[q]	Battery Capacity	p. 36
[r]	Inverter	p. 36
[s]	External Battery Charging	p. 38
[t]	Fuses	p. 38
[u]	Accessories	p.40

Technical Equipment and Accessories

[q] Battery Capacity

The monitor is located to the left of the front screen. It displays the remaining battery percentage.

[01] Press the button to display the current voltage (volts).

[02] Press the button to display the current current (amperes).

[03] Press the button to display the remaining power percentage.

[04] Battery display.

[05] Arrows indicating that electricity is being consumed (downward arrow) or recharging the battery (upward arrow).

[06] Display of the remaining power percentage.

[r] Inverter

The inverter is located behind the driver's seat. Make sure the black switch is in the 'ON' position and the green light is on. If a red light is flashing, the battery is low. Turn on the ignition or connect the vehicle to an external power source immediately.

Technical Equipment and Accessories

[s] External Battery Charging

The plug for battery charging is located at the rear on the driver's side of the vehicle.

[t] Fuses

The fuse box is located under the passenger seat. Each fuse and relay has been labeled; please refer to them.

Technical Equipment and Accessories

[01] Water bottle

The main water supply for the fountain is located in the technical cabinet. You can simply replace the water bottle once it's finished.

[02] Water machine

If the water machine's light is blinking and it's not working, unplug the main power cord for 3 seconds and wait for the water machine to restart.

[03] Dyson vacuum

You will find a Dyson vacuum cleaner plugged into its charging base.

[04] Backup remote control

In the upper part of the cabinet, there is a case with backup remote controls.

[05] Charging cable

Charging cable for the external battery to be connected outside the truck.
